the new year.

A WORD FROM THE MAYOR

Magalassiens,
Dear citizens,

Exceptionally, and for the first time since the creation of the Conviviality Hall, "the ceremony of the wishes" will not take place. It is sad but it is a necessity which health measures impose on us.

However, this confinement has not stopped life in our Municipality.

Solidarity has guided us all together and we have lived through 2020, respectful of our institutions and our village.

Only a few unreasonable people are causing trouble and consider our roads to be a municipal wasteland like a rubbish dump, which destroys everyone's efforts.

Responsible for your well-being, supported and encouraged by the municipal staff and many of you, the elected officials are determined and commit all their energy to changing the behaviour of these few people who are disrespectful of the common good (it is also necessary that everyone takes care and is organised, as these incivilities must stop). I ask everyone to be aware of the need to manage the rubbish dumps and containers. Thank you all for your help.

Despite the confinement, the concern for solidarity has always guided our actions. The most vulnerable among us are supported by our social centre; elected officials, the CCAS and associations do not spare themselves. We are also, in conjunction with the Community of Municipalities, listening to our traders, craftsmen, liberal professions and winegrowers.

We are doing our best to keep you informed of the epidemic situation and the actions implemented in our village (see last page).

In spite of this situation, as soon as the election was held, your elected officials established all working meetings and actions in the village necessary for your well-being, and they followed one another at high speed.

Cordially

Your Mayor,

ASSOCIATIVE COMMUNICATION

The Association Vivre à Magalas, long chaired by the late Mr. Bernard Boisard, and currently by Martine Moutou, has, in recent years, been working on Magalassian Heritage. With the help of Ms. Andrée Candau, the Association has decided to highlight certain heritage archives and to finance the publication of several interesting documents:

A first book "The Human Heritage of Magalas" (contains the testimony of village elders who tell the story of how life was before).

A second booklet "the historical and visitors guide to Magalas" (in which will find instructions if you wish to visit the village, all of which is embellished with very nice photos).

The third booklet "Magalas and its cemeteries" introduces you to the two other cemeteries in the village.

These documents, precious for all of us, are on sale (€5 each) in the village shops: at the Petite Epicerie, the Saint Laurent bakery, the Virginie hairdressing salon, the Bureau de Tabac and the future Maison des Services, Place Neuve. Also on sale is the book "MAGALAS, artisans and traders" (MAGALAS, artisans et commerçants), written by the "Patri-moine" commission of the Conseil des Sages under the direction of Mme LE GOAEC. (on sale at the Mediatheque for €25€).
